DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee

SECOM-D-261

18 October 1985

MEMORANDUM FOR: Director of Central Intelligence

VIA: Deputy Director of Central Intelligence
Director, Intelligence Community Staff *[Signature]* OCT 22 1985
Deputy Director, Intelligence Community Staff

FROM: Robert E. Leidenheimer
Chairman

SUBJECT: Review of SCI Access Approvals (U)

REFERENCE: Memo to NFIB Members fm DCI, dtd 10 July 85, Same Subject

1. Action Requested: That you request from NFIB members a specific response on how many SCI access approvals were reduced and how many persons were debriefed of all access approvals as a result of reference. Most responses to date have been non-specific. (OUO)

2. Discussion: Seven responses to reference have been received (attached). Only two contain any indication of the results of the requested survey, in terms of reduction of access approvals. The others are non-specific and deal in the generalities of how the responder administers SCI access approvals. Some used the occasion to lobby against TK subcompartments, an issue which is only indirectly related to your request. (C)

3. Listed below are the agencies responding thus far and a gist of each response:

OSAF - "over 5000 individuals were debriefed ... in excess of 21,000 individual SCI accesses were recouped ... an approximate 10% reduction."

USAF - "over 500 billets eliminated."

DIA - "review did result in deletion of SCI accesses that did not adhere to the 'need-to-know' principle." "National level initiatives will result in increase of SCI accesses for the DoD..."

Army - "By 1990, national level initiatives will increase the number of SCI accesses"
